

Technical Data Sheet
Hi-Core® Polypropylene Protection Board
For Waterproofing Membranes

Color: Natural translucent
Thickness: 2.5mm
Sheet Size: 1016mm x 1524mm
Basis weight: 0.512 kg/m²
Temperature Range without use constraints: -20° C to +57° C (ISO 75)
Izod Impact: 165 J/m
Tensile Strength at Yield: 27.6MPa
Drop Weight Impact: 30 ft-lbs

Key properties: Dimensional Stability
 Low Temperature Impact resistance
 Good Stiffness

Protection Board Features

Easy to handle – minimum labor for installation
Cut and fit with a utility knife
Cold bend 180 degrees or curve around radius 24"+ in length of flutes
Use with hot or cold applied waterproofing membranes
